

# DoD Social Media

The DoD's Experts in Social Media and Social Media Strategy

## About

The DoD Social Media team facilitates DMA's mission to provide a broad range of high quality social media products and services to inform, educate, and entertain Department of Defense audiences around the world.

Our team manages all DoD-level social media accounts and serves as an incubator for new communication tools and technology. We are continually seeking additional means of providing information in a way that is accessible, transparent and enhances the conversation.

Staying ahead of current mobile trends and applying new social media tools helps the DoD stay engaged with core audience members and while avoiding the pitfalls of technological "fads."
